

Electra

Nuova serie completa di calici, bicchieri e decanter in grado di soddisfare i professionisti più esigenti. La materia prima di calici e bicchieri è il nuovo vetro "Star Glass", messo a punto grazie alle tecnologie d'avanguardia di Bormioli Rocco, che hanno consentito di ottenere il perfetto connubio tra neutralità del colore del vetro, brillantezza ed un design moderno e raffinato. Grazie al trattamento XLT che dura nel tempo, i Calici Electra sono caratterizzati da elevate prestazioni di gambi e piattelli, in termini di resistenza all'uso, agli urti e ai lavaggi in lavastoviglie.

A complete new range of goblets, glasses and decanters that can satisfy even the most demanding professionals. The raw materials used for the goblets and glasses is the new "Star Glass". Perfected using Bormioli Rocco's cutting-edge technology, the result sees perfection which combines neutral colour glass with a dazzling shine and a modern, sophisticated design. Thanks to the long lasting treatment XLT, Electra stems and feet guarantee excellent performances in terms of resistance to daily use, twisting and washing.
